

ENGAGE.
GROW.
SUCCEED.

DOES "BACK TO SCHOOL" MEAN "RETURN OF STRESS" FOR YOUR FAMILY?

Do crowded hallways, cafeteria bullies and a 1:25 teacher:student ratio cause you to wonder if there isn't a better alternative for your student?

There is...

Augustine Hills School is Delaware's only DOE approved, K-12 1:1 Private School.

The Augustine Hills School Difference

Our school features individualized instruction with all teaching done at a 1 teacher to 1 student ratio. The curriculum is designed around the needs of the individual student and is student paced. Schedules are flexible and tailored to each student with input from parents or guardians.

What Students excel with 1:1 Teaching Instruction?

Students who learn differently thrive in our environment. Our 1:1 teacher-student ratio allows students to learn strategies that help them overcome their learning challenges without embarrassment or stress that often accompanies a traditional classroom setting. Students gain confidence in their abilities and learn to enjoy academic success.

Gifted and talented students benefit from a tailored schedule that allows the student to harmonize the pursuit of their special talent while keeping pace with academic requirements. Our personalized approach ensures that the student stays on track academically while pursuing their ambitious dream.

Students with social, emotional or medical conditions enjoy learning in the quiet and relaxed atmosphere of our 1 teacher to 1 student classroom. Students gain confidence by the intimate teacher interaction and fare better when teaching methods used focus on the unique, individual needs of the student.

What else?

- We have a wide range of core courses as well as electives to offer
- We are conveniently located just off I-95 in Wilmington, Delaware
- We function both as a permanent as well as a transition (ie partial year) school
- Our team of specialists including psychologists, speech and language therapists, and special education teachers are readily available to assist students

Enrollment is limited— call today! Visit us on the [web](#) or call our Education Director Brad Catts to talk about your student and schedule a tour at (302)594-0754.

Sometimes the
classroom
just isn't a great fit.

Traditional schools assign students to teachers and classrooms. Augustine Hills School turns that model upside down. At AHS, teachers are assigned to a student based upon the unique needs, ability, and personality of each learner. Each student experiences one-to-one learning, differentiated instruction, and a self-paced curriculum. Students move at their own pace. At Augustine Hills School the individual student is the class.

If your child is struggling academically or if traditional school models aren't a good fit, you don't need a short-term fix. You need a lasting solution.

Welcome to Delaware's only Department of Education-approved 1-on-1 Private School!
